Golden, Colorado 80403-8200

RE Draft, FY04 Notification # 04-07, IHSS Group 700-10, PAC 700-1101 (Laundry Tank Overflow-Building 732), dated November 2003

Dear Mr Legare

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division) hereby approves the subject document. A comment resolution meeting on January 8, 2004 was successful in resolving the Division's written comments on the initial document. Those comments are attached for reference.

A removal action, if any, is not scheduled until late 2004 or 2005. As a result, the parties recognize that changes to the notification may arise, and revisions to the document may be warranted or possible, based on the investigation or other factors.

We look forward to verifying the final document. If you have any questions regarding this correspondence, please contact me at (303) 692-3367, Harlen Ainscough at 303-692-3337.

Sincerely,

Steven H Gunderson  
RFCA Project Coordinator

**November 2003**

---

**General Comment**

- 1     **Section 2.4** page 5, 2nd bullet – Please delete the first sentence of the bullet Sampling does not, and need not, support a removal decision for surface soils since the release was well below grade
- 2     3<sup>rd</sup> bullet – Please delete the first and second sentences of the bullet Sampling does not, and need not, support a removal decision for surface soils, or to a depth of six feet, since the release was well below grade
- 3     last paragraph – relative to metals (non-radionuclides) and organics no data will be available to assess whether background or detection limits are exceeded The release was well below grade and the COCs are limited to radionuclides Please modify the statement to reflect the remediation plan pertinent to this PAC
- 4     **Section 2.5.3** Please clarify that the compounds listed are not believed to have originated from this PAC Please see Comment No 1 of the IHSS Group 700-10 SAP Addendum which, if followed, may support that assumption
